Job Description

HVAC Technician

Wescan Construction Services is a leading mechanical contractor and service maintenance provider. We are seeking a highly skilled Mechanical HVAC Technician to join our team of professionals to provide service for our customers in Winnipeg, Manitoba. The Mechanical Maintenance Technician will be responsible for installing, maintaining, and repairing heating, ventilation, and air conditioning systems in commercial and industrial settings. The role requires technical expertise, strong problem-solving skills, and a commitment to ensuring the comfort and safety of our clients.

Responsibilities

- **Equipment Maintenance:** Perform regular maintenance tasks on HVAC equipment to ensure optimal performance. Replace or repair faulty components, such as compressors, motors, and thermostats. Clean and replace filters, coils, and ducts as needed.
- **Installation:** Install HVAC systems, including heating units, ventilation systems, air conditioning units, and related components. Configure and calibrate control systems to ensure efficient operation.
- **Troubleshooting:** Diagnose and identify issues with HVAC systems using diagnostic tools and equipment. Develop solutions to resolve technical problems and implement repairs efficiently.
- **Safety Compliance:** Ensure all work is carried out in accordance with safety protocols and regulations to maintain a safe working environment.
- **Documentation:** Maintain accurate records of maintenance and repair work. Prepare reports on equipment condition and maintenance schedules.
- **Collaboration:** Work closely with other maintenance professionals and contractors to coordinate repairs and upgrades.
- **Customer Service:** Interact with clients professionally, addressing their concerns and providing information on HVAC systems.
- **Emergency Response:** Be available for on-call duty to respond to emergency mechanical issues outside of regular working hours.

Requirements

- **Education:** High school diploma or equivalent. Completion of a recognized apprenticeship program.

- **Certification:** Valid Refrigeration/HVAC technician license in the Province of Manitoba. Journeyman plumber license, Gas Fitter (A or B), Steam/Pipefitter would be an asset.
- **Experience:** Minimum of 2 years of relevant experience in mechanical maintenance or construction, preferably in an industrial or commercial setting.
- **Knowledge:** Strong understanding of mechanical systems, HVAC, plumbing, piping, and components.
- **Code Compliance:** Familiarity and adherence with local codes and regulations.
- **Safety:** Commitment to maintaining a safe work environment and knowledge of safety protocols. Preparing daily safety reports and toolbox talks.
- **Problem-Solving:** Excellent troubleshooting skills and the ability to identify and resolve mechanical issues efficiently.
- **Communication:** Effective communication skills to interact with team members and customers and report maintenance activities accurately.

Key Skills

- **Mechanical Expertise:** Proficient in mechanical systems repair and maintenance, equipment, tools and interpretation of mechanical drawings and schematics.
- **Safety Consciousness:** Prioritizes safety in all aspects of work.
- **Attention to Detail:** Maintains accuracy in documentation and work.
- **Team Player:** Works collaboratively with other maintenance professionals.
- **Adaptability:** Can adapt to changing priorities and tasks.
- **Communication:** Communicates effectively with colleagues and superiors.

At Wescan Construction Services, we value diversity and are committed to creating an inclusive work environment. We encourage candidates from all backgrounds to apply.

If you are a skilled Mechanical Maintenance Technician looking for a challenging and rewarding opportunity, please submit your resume and cover letter or apply through our website www.wescan-services.com/careers.

Wescan Construction Services is an equal opportunity employer. We thank all applicants for their interest; however, only those selected for an interview will be contacted.

NOTE: The Job Description is not all-inclusive. Employee may perform other related duties as negotiated and assigned to meet the ongoing needs of the organization.
